

# Second ETSAP-Book

Proposed by Maryse Labriet

**ENERiS**  
Environment Energy Consultants

## 2. Why?

Scientific and political recognition and visibility of ETSAP

Foster the application of ETSAP tools to climate and energy planning

Successful first book focused on tools and methodologies

## 3. Who?

Open to all members  
(selection may be  
needed)

## 4. When?

Spring 2018: Book  
available online

Early 2017: Book  
Proposal submitted

## 5. Cost?

6500 EUR + 1000 EUR  
travel to be confirmed

10 days (optimistic)

## 6. Beyond?

Massive Open Online  
Courses?

Other collaborative  
dissemination  
strategies?
